On Thursday evening, January 11, 1973 at 9:00 p.m., Americans stepped into the home of the Loud family of Santa Barbara, California. Chronicling the lives of its family members, the series made parents Pat and Bill Loud and their five children Lance, Delilah, Grant, Kevin and Michele Loud household names.

Now, 40 years since filming, the original film crew have adapted the 12 hours into this 2-hour compilation of the most memorable and compelling moments of the series.

There are places on this planet where it's a marvel that anything survives. In the cold Arctic waters of the far north, the sea is alive with sound. The canaries of the sea are singing.

They're beluga whales, named from the Russian word for "white ones." They're an evolutionary surprise - a warm-blooded mammal in a numbingly cold sea. Resembling curious ghosts, these intelligent mammals use one of the most complex sonars of any animal.

## GREAT PERFORMANCES: RIGOLETTO FROM MANTUA

SATURDAY, JULY 23 @ 8:30 PM

From Andrea Andermann comes a visually and musically spectacular production of Verdi's Rigoletto, filmed last September on breathtaking locations in and around the Renaissance splendor of Mantua, Italy, in the places and hours specified in the libretto.

Taped at the historic Ryman Auditorium, the famous former home of the Grand Ole Opry, these performances have been preserved and restored to pristine condition, with top quality sound and video and all are in beautiful, full color.

## SECRETS OF THE DEAD: AZTEC MASSACRE

WEDNESDAY, JULY 20 @ 9 PM

Throughout recent times, historians have believed that when the Spanish conquistadors arrived in Aztec territory in the 15th century, they were welcomed as returning light-skinned gods by the Aztecs, who put up little resistance to their conquest. But now, a new find outside of Mexico City is turning history on its head. The discovery: more than 400 bodies, many of which show signs of having been mutilated and even eaten.

This program paints a new picture of the violent relations between the Aztecs and the conquistadors and rewrites much of what we thought we knew about the Aztec civilization.
